

**Retrieve – Worksheets to be used in conjunction with Training Manual**

This dog is executing the retrieve in Test A. The dog is in a motionless state after reaching the dumbbell. What fault is occurring?

---

How many points will be deducted assuming no extra command is given?

---

This is a Novice retrieve. Can you see any faults occurring? If so, what are they?

---

How many marks will you deduct?

---

This is the Novice retrieve. What fault is occurring here?

---

How many points will you deduct?

---

Whoops! What happened here?

---

It's Novice. How many points are you going to deduct?

---

What if it was Test A and the dog needed a command?

---

Some handlers just never read their rules!  
What fault is occurring?

---

How many points are you going to deduct?

---

Is it a minor or major fault?

---
